LAKE SUCCESS, N.Y., June 30 (AP)—Thirty-two countries have lined up in support of United Nations military measures under United Nations auspices to save South Korea, the Security Council was advised today.

There was one flaw in the support, which was line-up of non-Communist countries offering material and moral support.

Eighteen of the Council members, not accept the Council's resolution of Tuesday night endorsing American intervention in Korea and asking other countries to contribute their support.

The 32 countries joining the field are the 21 American republics, which made their decision in the Council of the organization American States in Washington, Britain,

# Bandit Takes Hospital Cash In Montreal

MONTREAL, June 30 (CP)—A sun-toting bandit held up the accounts office in the St. Jean Baptiste Hospital today, snatched \$4,592 payroll in a paper bag and fled.

The gunman appeared to know the office set-up. He selected an unlocked door in preference to a locked door, the only two entrances to the office.

Napoleon Dorelleau, accountant, had just returned from a bank with the staff payroll. He saw the bandit enter the office.

The man pointed his gun at Miss Lalonde, who screamed, "Don't shoot."

Dorelleau managed to shout "Police" over the telephone before the bandit broke the connection. He gathered up the money, stuffed it in the paper bag and fled from the office.

The same hospital was held up in 1944 and robbed of \$10,000.

# Set Fire Fatal to 168, Circus Worker Admits

COLUMBUS, O., June 30 (AP)—A lanky circus roustabout, by his own words a killer and around 50 years of age, has confessed to the fire which took 168 lives as it swept through the Ringling Bros. circus six years ago.

Although not formally charged with the circus fire, 20-year-old Robert Dale Segge, of nearby Chillicothe, was named today by Ohio Fire Marshal Harry J. Callan as the man who put the torch to the circus in 1944.

In addition to the huge death toll, 412 persons were injured.

Callan said Segge had signed a statement admitting the circus fire four slayings "by his own hands, and more than a score of major fire in Ohio, New Hampshire and Maine.

One of the killings, Callan said, was a Japanese boy, named white tiger, who was a member of the circus.

The fire marshall said Segge also admitted beating to death nine-year-old Barbara Dorelleau of Portsmouth, N.H., on a later tour, June 1948.

## Speech From Throne at Prorogation Calls Korean Fight Serious Threat

OTTAWA, June 30 (C.P.).—The second session of Canada's 21st Parliament, quiet through most of its 90 sitting days, was prorogued today amid an atmosphere of concern over the war in Korea.

Prime Minister St. Laurent announced that three Canadian destroyers will move to Pearl Harbor to be closer to the scene if needed for action by United Nations and said Parliament will be reconvened if the situation in Korea deteriorates.

As is customary, a formal date for a new session was fixed at August 9. In normal circumstances, Parliament will not meet again until early next year.

**DECISION APPLAUD**  
Spokesmen for the Opposition parties applauded the Government's decision to recall Parliament in the event of an emergency. The speech from the Throne described the Korean situation as a "serious threat to peace."

The speech, read in the Senate Chamber by Mr. Justice Patrick Kerwin, Acting Deputy Governor-General, said:  
"Though the situation emphasizes the grave concern which has long been felt over the failure of the Security Council to arrange for the provision of forces to implement its decisions in such cases, the prompt and energetic measures taken by individual members on its behalf and in conformity with its resolutions to restore and maintain peace in that area have met with general approval in all the free nations and will, I am sure, dispose them all to supply such form and degree of co-operation as may be required."

**DEPENDS ON UNITY**  
"The Government remains convinced that until there is genuine good will among all nations, the maintenance of peace will continue to depend upon the unity and strength of the free nations."  
The speech said continued close attention was being given to the development of Canada's defence forces, and referred to the recent

developments in relations with North Atlantic Treaty countries and the Commonwealth.

The Government "was gratified by the announcement of the United States Government that a program for the purchase of defence supplies in Canada on a reciprocal basis was being developed for the year beginning on July 1."

In the final minutes before prorogation, the Senate and the Commons approved bills authorizing Government expenditures of more than \$2,390,000,000 for the current fiscal year. More than \$425,000,000 of that amount was for national defence.

**LAST-MINUTE PROTEST**  
In the Senate, Senator Thomas Reid (L., British Columbia) made a last-minute protest on the way expenditure of money was voted by Parliament. He said "not one senator" knew what was going through.

The incident was similar to many that flared up and faded during the session, which failed to produce any major controversial issue. The session opened February 16.

The Throne Speech reviewed the long list of legislation passed during the session.  
It included an act extending unemployment insurance legislation to cover new categories of workers and to provide supplementary payments for those affected by seasonal unemployment. Another measure provided for consolidation of existing legislation dealing with the armed forces, including a purely Canadian disciplinary code.

**GREATER PENALTIES**  
The Official Secrets Act was amended to provide greater penalties for those who spy against Canada for foreign countries. The changes also broadened the powers of the Government to deal with cases where Canadian secrets were divulged outside Canada to a foreign power.

Several measures dealt with problems in the field of agriculture. Life of the Canadian Wheat Board, sole marketing agency for wheat and coarse grains, was extended for 1953. The Agricultural Prices Support Act was given permanent effect. It enables the Government to keep farm prices from dropping below reasonable levels. A similar act was adopted to support the price of fish products.

**AT HIGH LEVEL**  
On trade, the speech said:  
"Our external trade remains at a high level despite difficulties arising out of the world-wide shortage of United States dollars which continued to affect overseas markets for certain of our export products."  
"My ministers are giving constant attention to the removal of obstacles to the free flow of trade between our country and our traditional customers overseas."

Reference also was made to the report of the Commons-Senate committee on old-age security which advocated a \$40-a-month pension for all 70 and over regardless of means and a similar conditional pension for the needy between 65 and 70.

The report would provide an essential background of informed opinion in advance of the forthcoming Dominion-Provincial conference.

## Playgrounds Open Monday For Summer

Ten Victoria and three Oak Bay supervised playgrounds will open Monday for Summer activities.  
At Oak Bay, official opening ceremonies will be staged at all three parks. Councillor George Murdoch will open activities at Willows Park at 10:30 a.m. Lafayette Park will be opened at the same time by Mrs. H. A. Beckwith.

Windsor Park playground will be declared open at 2:30 p.m. by Councillor Jack Rutan, parks board chairman.

**WILLOWS, WINDSOR**  
Willows and Windsor playgrounds will operate six days a week from 9:30 a.m. to 4 p.m., but both will be closed Wednesday and Saturday afternoons as well as Sunday. Lafayette will operate on a five-day schedule, supervised in the mornings only from 9:30 to 11:30, closed Saturday and Sunday.

City-supervised playgrounds are: Central, Beacon Hill, James Bay, Todd Park, Burnside, Oaklands, Hollywood, Stadacona, Victoria West and Ellice Street playlot. Hours at Beacon Hill will be from 9:30 a.m. to 4 p.m. All others will be open from 1:30 p.m. to 4 p.m.

**SWIMMING INSTRUCTION**  
Swimming instruction for Victoria children will start 9 a.m. Tuesday at Crystal Garden pool. Tuesdays will be reserved for girls, Friday for boys. Instruction for Oak Bay playgrounds children will comprise a series of six lessons at the Crystal Garden pool on Wednesdays and Saturdays at 9 a.m., commencing July 12.

Opening date for Saanich's ten supervised playgrounds is July 10. Playgrounds at Esquimalt are available for children's use, but will be unsupervised.

The Esquimalt Council is investigating possibilities of supervising and further equipping the playgrounds, a council spokesman said yesterday.

The first American play to be produced was "The Contrast," by Royall Tyler in New York in 1788.

## Tough Battle Ahead Against North Korea

Interpreting the News

By J. M. ROBERTS, JR.,  
A.P. Foreign Affairs Analyst  
Soviet Russia, that great advocate of peace, has refused to lend its good offices to end the Korean warfare and the United States has countered with a decision to do so by the use of all necessary force—ground troops and the bombing of Northern military objectives in addition to the aid previously announced on Tuesday.

The United States first moved into the Korean situation in the belief that its entire position as leader of the world's anti-Communist forces would be threatened by any display of weakness, and that the whole future of the United Nations would be equally threatened by failure to protect the South Korean Government which it has sponsored.

**NO RETURN**  
Now, as it becomes evident that North Korean tanks cannot be stopped by the South Korean army, and with the American air support hampered by bad weather which promises to get worse as the rainy season progresses, the United States makes it clear that having set its hand to the plough, it has no intention of turning back; that South Korea is to be held and the Northern forces driven from the areas which they have occupied.

This may be more difficult than one might think when comparing the forces of the United States with that of the less productive, less populous half of Korea. But it may be recalled that the British have been fighting Communist guerrillas in Malaya for two years now, and that a recently intensified drive enlisting a major portion of Malayan manpower was unsuccessful.

**GUERRILLA WARFARE**  
The United States obviously feels that it can stop Northern Korean penetration, but to throw the Northerners out, once the campaign deteriorates into guerrilla warfare as seems probable, may be a different matter.

It was obvious from the beginning that United States policy would have to be extended to more or less unlimited warfare, although it does not yet involve strategic bombings of cities. Korean fighters could not be permitted to use unmolested Northern air fields from which to attack American planes, so bombing north of the demarcation line was called for.

**NAVAL BLOCKADE**  
The use of a naval blockade against North Korea doesn't mean much, but the stoppage of "leap-frogging" operations along the coast does. General MacArthur knows all about that, from the effectiveness of the amphibious forces he developed himself for the purpose against the Japanese in New Guinea.

Russia's refusal to try to stop the fighting—which everyone knows she is responsible for in the beginning—is no surprise, of course. Nor is her excuse, that she doesn't believe in interfering in the affairs of other

nations. (She merely takes them over to help them to a better way of life).  
But she continues to show no sign of direct intervention, heightening the hope that the allied operation can continue in a role of pacification, and that President Truman can continue to have grounds for saying that the United States is not actually "at war."

## Oddities

LONDON, June 30 (Reuters).—Even the most truthful people become liars when asked if they go to church regularly, says a Political and Economic Planning survey.

Better known as "Pep," the organization is an independent research group, studying political and economic planning.

Although its roving reporters have found that people generally tell the truth, they nearly always get the answer "Yes" when asked: "Do you go to church regularly?"

The way to find out whether people really go to church, say the investigators, is to ask whether they garden Sunday, or go to a movie, whether they drive out to the country or stay at home.

Then ask: "Do you do anything else?"

That puts it up to them to decide whether they can reasonably add that they also go to church.

## Educational Entertainment to Combat Radio's Notorious Crime Programs

By ARNIE MYERS

After years of pointless screaming about America's youth being corrupted by violence-packed crime shows and wib-dun-las, a group of prominent Americans have finally done something about it.

The group is known as The National Academy of Broadcasting Foundation, Inc., and has its headquarters in Washington, D.C.

This foundation has come up with what seems, on the face of it, to be the only sensible way to combat the blood-and-gore boys.

The foundation realizes it can't force the crime shows off the air. They have too large a following, for one thing. But it feels teenagers can be tempted away from the shoot-em-up shows with new, interesting, educational and above all—entertaining programs.

Slated for the first year are 208 one-recorded shows for distribution to stations all over the continent. The first series will be slanted at teen-agers; later shows will appeal to other age groups.

Dramatized versions of stories by famous authors will make up the first series. Lead-in to each show will feature two teen-agers discussing some problem or a trait such as honesty, courage, greed or vanity. Uncle Will, who has been lurking in the background, overhears the conversation, takes down a book and tells a story bearing on the situation.

Authors represented will include Tolstoy, Kipling, Dickens, De Maupassant and Stevenson.

Proof that such literary works will appeal to teen-agers is the success of a Columbia-sponsored series of dramatized classics aired over CJVI three years ago.

The new plan has the blessing of local radio men.

"I think it's an excellent idea," said M. V. Chesnut, CJVI manager. "We'd be happy to do some experimental broadcasting along this line."

David Armstrong, manager of CKDA, said his station would investigate the plan thoroughly. "It's a step in the right direction," he should have more programs of this type.

The foundation will charge individual stations only \$25 a year, plus mailing charges on the tapes. Remainder of production costs will be met by public subscription. The

## Other Denominations

### CHRISTIAN SCIENCE

"God" will be the subject of the lesson-sermon on Sunday and will include the following passage from the Bible: "Then came the Jews round about him, and said unto him, if thou be the Christ, tell us plainly. Jesus answered them, I told you and ye believed me not; the works that I do in my Father's name, they bear witness of me." John, 8: 24, 25.

## Places Blame On Parents

CLEVELAND, O. (U.P.)—If Junior throws a tantrum when it's time for him to practice his music lesson, the fault may lie not in the fact that he doesn't like music but with his parents and teachers.

Or so say Frank W. Hill and Melvin Schneider of State Teachers College, Cedar Falls, Ia., here for the annual meeting of the music teachers national convention.

"Every child is musical to some extent," Hill said. "If he's not, it's his parents' fault."

"Parental attitude towards music lessons," Schneider chimed in, "often leads Junior into thinking it's a chore and as something unpleasant to get over with as quickly as possible."

# Boulders Roll At Climbers; Youths Blamed

CAPE TOWN, June 30 (CP).—"Crackpot" youths are held responsible for several incidents which might have ended in the deaths of climbers on Table Mountain recently.

Almost every week-end, huge boulders are sent crashing down the slope to scatter parties of mountaineers. One mountaineer said that he had twice barely escaped death from "these mountain madmen."

He had had to crouch against a cliff-face to avoid a big rock which had been rolled down toward him. Other smaller boulders were then rolled down, and he fired three shots at the spot where he reckoned the boulders had been set in motion.

The rolling of boulders stopped immediately. Face-climbers, roped together, have been climbing Jacob's Ladder, only ascent up a narrow gully, when a big rock struck the top rung, missing him by inches. Had the ladder been upset, it would have meant certain death for the ranger.

The mountain staff say that European youths are responsible, and that rolling down boulders is their way of "having fun."

One of the mountain ranger's staff was climbing Jacob's Ladder, only ascent up a narrow gully, when a big rock struck the top rung, missing him by inches. Had the ladder been upset, it would have meant certain death for the ranger.

## Duncan Sisters' Manager To Make Film of Their Life

HEARD IN HOLLYWOOD

By LOUELLA O. PARSONS  
HOLLYWOOD, June 30 (INS).—Director Richard Bare, the manager of Vivian and Rosetta Duncan for many years, has bought the film rights to the life of the famous sisters and will make it into a musical this year. Dick has also bought the rights to their stage hit, "Topsy and Eva." These rights were formerly acquired by Mary Pickford, who, at one time, planned to make the picture herself.

Certainly, no one is better qualified to capture the spirit of these two sisters, popular in the '20's, than Richard Bare, who knew them when they were the country's leading musical comedy stars.

Vivian found love and happiness romantically, but Rosetta remained true to an unrequited love and never married.

M.C.A., representing the package deal, is in the midst of negotiations with a major studio.

CHAPLIN DIRECTOR  
Evelyn Keyes and Sydney Chaplin go into rehearsal in six weeks for "Othello" with Charlie Chaplin as their director. He has been rehearsing Evelyn and Sydney, as I told you, in private—but now he

is so interested in his son's characterization of the jealous Moor that he'll take over the actual direction of the stage play.

Evelyn, excited over the prospects of Chaplin's directing her, is seeing Young Sydney to the exclusion of all her other admirers. She admits she likes him, but won't say there is a serious romance.

RANDOM SNAPSHOTS  
Mrs. Phil Jordan, who as Marilyn Nash was in Charlie Chaplin's last picture, has gone to Arizona.

Frank Sinatra, here briefly to see his children, opens at the Palladium July 19.

Popular Rosalind Courtwright brought out a big first night audience for her debut at Ciro's Joseph Schenck was there with his house guest, Billy Rose. At another table the Henry Ginsburgs, Betty Hutton and the Louis Ellinas of Ireland—ang Edward and Gladys Robinson and Nancy Oakes were all ringers.

I had dinner Tuesday night after Virginia Keith's marriage to Maile Clant, at the Beverly Hills Hotel. There was a piano there and Jimmy McHugh gave out

ENGLISH AS SHE IS WRITING

Here is a bona fide letter received from Wen Chang Wang, of Peiping, China, by Mr. Solomon Davis, Beverly Hills. "My honorable Mr. Davis, I write you some letter some times. I am the man who tell you about the Chinese goods store in Baltimore Hotel own by Mr. Milnor, Inc. Now you remember me. We country have trouble with Russia. Lots of wealthy people wish to sell their precious things to get cash money. It is dangerous to keep good things. Mr. Milnor, Inc. bought lots, lots good thing at cheap price. I hope you go see them goods. You must want them for Xmas present. Then goods are by me, if you bought them. I said, 'I hope always go to your country see you. Pay you my humblest courtesy in face. Thank you honorable Mr. Davis. Goodbye. Your faithfully very, W.C. Wang.'"

The first English advertisement of coffee appeared about 1657 in The Public Adviser, a periodical devoted exclusively to advertisements. "In Bartholomew Lane, on the back side of the Old Exchange, the drink called coffee, which is a very wholesome and physical drink, have many excellent virtues, closes the orifice of the stomach, fortifies the heart within, helps digestion, quickens the spirits, maketh the heart lightsome, is good against eyes-sores, coughs or cold, rhumes, consumptions, head-ache, dropsie, gout, soury, King's evil, and many others, as to be sold both in the morning and at three of the clock in the afternoon."

Santa Barbara: To settle a dispute, please tell us how the "o" is pronounced in the word coffee. Is it short as in cop, or like the "aw" of cough?—H.D.C.

Answer: Dictionary opinion is somewhat divided. Some dictionaries show only the short "o" as in cop; some show the "aw" sound as in cough; others show both sounds. My own opinion agrees with Kenyon & Knott's Pronouncing Dictionary: "In coffee 'aw' (KAW-fee) clearly prevails in all regions of the United States." In the East the short "o" is quite common, but not universal.

(CHAPTER XXXI—Continued)  
Only—sometimes—the most amazing impersonations did happen. You could get away with a great deal if you had enough audacity. The door opened and Miss Blacklock came in. She looked, Miss Marple thought, many years old. All the life and energy had gone out of her.

"I'm very sorry, disturbing you like this," said Miss Marple. "But the Vicar had a dying partridge and Bunch had to rush a sick child to hospital. The Vicar wrote you a note."

She held it out and Miss Blacklock took it and opened it.

"Do sit down, Miss Marple," she said. "It's very kind of you to have brought this."

She read the note through.

"The Vicar's a very understanding man," she said quietly. "He doesn't offer one fatuous consolation. . . . Tell him that these arrangements will do very well. Her—her favorite hymn was 'Lead Kindly Light.'"

CHAPTER XXXII  
IDLE CURIOSITY  
Miss Blacklock's voice broke suddenly.

"I am only a stranger, but I am so very sorry about Miss Bunch."

And suddenly, uncontrollably, Letitia Blacklock wept. It was a piteous overmastering grief, with a kind of hopelessness about it. Miss Marple sat quite still.

Miss Blacklock sat up at last. Her face was swollen and blotched with tears.

"I'm sorry," she said. "It—it just came over me. Well, I've lost. She—she was the only link with the past you see. The only one who—remembered. Now that she's gone I'm quite alone."

"I know what you mean," said Miss Marple. "One is alone when the last one who remembers is gone. I have nephews and nieces and kind friends—but there's no one who knew me as a young girl—no one who belongs to the old days. I've been alone for quite a long time now."

Both women sat silent for some moments.

"You understand very well," said Letitia Blacklock. She rose and went over to her desk. "I must write a few words to the Vicar." She held the pen rather awkwardly and wrote slowly.

"Arthritis," she explained. "Sometimes I can hardly write at all."

She sealed up the envelope and addressed it.

"If you wouldn't mind taking it, it would be very kind."

Hearing a man's voice in the hall she said quickly:

"That's Inspector Craddock."

She went to the mirror over the fireplace and applied a small powder-puff to her face.

Craddock came in with a grim angry face.

He looked at Miss Marple with disapprobation.

"Oh," he said. "So you're here."

Miss Blacklock turned from the mantelpiece.

"Miss Marple kindly came up with a note from the Vicar."

Miss Marple said in a hurried manner:

"I'm going at once at once. Please don't let me hamper you in any way."

"Were you at the tea party here yesterday afternoon?"

Miss Marple said, nervously:

"No—no, I wasn't. Bunch drove me over to call on some friends."

"Then there's nothing you can tell me," Craddock held the door open in a pointed manner, and Miss Marple scuttled out in a somewhat shamed fashion.

her," said Miss Blacklock. "She really did come with a note from the Vicar."

"I bet she did."

"I don't think it was idle curiosity."

"Well, perhaps you're right. Miss Blacklock, but my own diagnosis would be a severe attack of No. 1. Parkerville."

"She's a very harmless old creature," said Miss Blacklock.

"Dangerous as a rattlesnake if you only knew," the Inspector thought grimly. But he had no intention of taking anyone into his confidence unnecessarily. Now that he knew definitely there was a killer at large, he felt that the less said the better. He didn't want the next person he bumped off to be Jane Marple.

Somewhere—a killer. . . . Where? "Won't waste time offering sympathy," Miss Blacklock, he said. "As a matter of fact I feel pretty bad about Miss Bunch's death. We ought to have been able to prevent it."

"I don't see what you could have done."

"No—well, it wouldn't have been easy. But now we've got to work fast. Who's doing this, Miss Blacklock? Who's had two aims at killing you, and will probably if we don't work fast enough, soon have another?"

Letitia Blacklock shivered. "I don't know, Inspector—I don't know at all."

"I've checked up with Mrs. Goedler. She's given me all the help she can. It wasn't very much. There are just a few people who would definitely profit by your death."

First, Pin and Emma. Patricia and Julia Blumman are the right age, but their background seems clear enough. Anyway, we can't concentrate on those two alone. Tell me

Miss Blacklock would you recognize Sonia Goedler is you saw her? "Recognize Sonia? Why, of course—" she stopped suddenly. "No," she said slowly, "I don't know that I would. It's a long time. Thirty years. . . . She'd be an elderly woman now."

"What was she like when you remember her?"

"Sonia?" Miss Blacklock considered for some moments. "She was rather small, dark. . . ."

"Any special peculiarities? Mannerisms?"

## Pipeline Plan Brings Life To Dry Land

KELOWNA, B.C., June 30 (CP)—The final length of pipe has been laid in one of the biggest sprinkler irrigation projects in Canada.

Rich but arid land—1,200 acres—at Westbank will be brought into production, possibly by next year.

The pipeline is 24 inches in diameter at the intake, and gradually narrows down to four inches for each individual parcel of land. Both irrigation and domestic water will be supplied. A 75-foot high storage dam has been constructed on Bear Lake, more than a mile away.

The land will be settled by war veterans and the farms will be 12 to 14 acres in size. There will also be 'small holdings' on the lakefront for part-time farmers who have other jobs. Work is being done by Prairie Farm Rehabilitation Act engineers.

This is one of the first dry-land reclamation schemes to be developed as a sprinkler project from the out-set.

Capt. J. I. Dunbar (left), and Mrs. L. A. Winch of New Westminster, two of the women participating, are pictured on the firing mound.

## Out on the Firing Range

The cracking of rifle fire has been heard echoing across Heals Rifle Range from early morn to dusk this week as competitors vied for honors in the 66th annual prize meeting of the British Columbia Rifle Association.

Shooting doesn't draw many women competitors, but the few that do participate are keen enthusiasts.

Capt. Jean Dunbar, whose prowess as a shot is well known, is taking part in the event. Capt. Dunbar is an honorary member of the Canadian Scottish Regiment, Princess Mary's, and also a life member of the B.C. Rifle Association. The Dunbar Trophy, which she donated in 1934, was won this year by Bandsman Frank Drusdale of the Canadian Scottish.

Mrs. Eileen Learoyd, who has been shooting for only two years, broke her tyro at the meet by placing third in the Duff Stuart Match on Thursday. Mrs. Learoyd was also a member of the team which won the Gellatly Cup on Wednesday morning, and on Friday won the Letson Trophy by leading the tyro aggregate.

## To Exhibit Photographs

Comfortably settled in the arms of his mistress, prominent photographer Miss Anne Wurtelle, who has accompanied her through 30,000 miles of travel by air, rail and water, Miss Wurtelle here from London, Ontario, will hold an exhibition of her work at the Arts Centre, from July 4 to 8. While in Victoria, Miss Wurtelle is visiting her father, Mr. Charles Wurtelle, Tarn Place.

## Children and Animals Photographer's Delight

There is no such thing as a "plain" or uninteresting child. This is the contention of photographer Miss Anne Wurtelle, of London, Ont., whose outstanding studies of children and animals will be on display from July 1 to 8 at the Arts Centre.

A thorough person who derives pleasure from doing all her own processing, from composing the picture to the final mounting job, Miss Wurtelle became interested in photography 14 years ago. The man who introduced her to what has now become her life work was Mr. Arthur Hamilton, a New York photographer noted for his landscape and portrait work. She still values his advice and criticism highly.

Scenery, however, did not attract Miss Wurtelle as an ideal subject for photographic studies as she turned to children and animals. "Completely fascinating" is the way she describes the business of capturing the never-ending variety of expressions and moods of her subjects.

**NEVER POSES CHILD**  
"I almost never pose a child," explains the photographer. "Using a Rolleiflex camera with 35 Tessar lens and portable lighting equipment, I go to the child's own home, having proved by long experience that in familiar surroundings, there is not the barrier of strangeness or distractions to wear down."  
This does complicate things as far as the photographer is concerned.

## Weavers' Guild Hears Address

At a business meeting following Miss Hill's talk, President Mrs. Hazel Hodson announced final arrangements for the sixth annual exhibition of Hand Weaving being held on July 6, 7 and 8 in the Duke of Kent and Princess Charlotte rooms at the Empress Hotel. Mrs. Ethel Hammond, convener of the exhibition committee, reported that a gratifying number of outside entries had been received.

### On Tour of National Parks

Irene Baird, information officer with the National Department of Resources and Development, who is on a tour of National Parks, is spending two weeks' holiday in Victoria, her home before she left for Ottawa in 1942.

### Well-Known Authoress Spending Holiday Here

The tremendous growth of Victoria is simply amazing. It seems that everywhere I look there, is either a new building or one going up," says Irene Baird, in Victoria for the first time since 1942, except for a few days in 1946 while en route to Mexico.

Mrs. Baird, well-known authoress, lived in Victoria until 1942 when she went to Ottawa with the National

Film Board. It was as an information officer with the Film Board that she came through Victoria in 1945 en route to the Canadian Embassy in Mexico.

Two of her books, "Waste Heritage" and "He Rides the Sky" were written in Victoria following her first success, "John".

#### SERIES OF ARTICLES

An information officer of the National Department of Resources and Development, Mrs. Baird is at present making a tour of national parks collecting information for a series of articles. Taking advantage of the trip west Mrs. Baird is spending her annual leave here at the Hotel Empress. Her son, Ron Baird, is in Victoria and her husband, John, who graduated in home economics at U.B.C., this year will arrive on Monday.

Mrs. Baird said it was rather hard to determine what her exact duties are. "I write articles, handle special projects and inquiries and numerous other things," she said.

Now, after training she thinks it is an invaluable experience for all use of what she has learned. She said she was very interested in the newspaper training she had.

#### AUTHOR'S PRESIDENT

Mrs. Baird is a member and former executive of the Ottawa Women's Press Club and for two years held the presidency of the Ottawa Authors' Association. She brought greetings to both club counterparts in Victoria.

Mrs. Baird noted that there is an increasing number of women holding responsible positions in government service. "There are not many yet but the number is slowly increasing," she said. One reason for this, she thinks is that women enter and organizations in general are taking more interest in women in public life.

Annual garden party of the Victoria P.T.A. attracted a large number of guests when it was held at the home of M. and Mrs. A. P. Bayles, Pearl Road, Tuesday.

### David McLean and Bride Honeymoon in Okanagan

Three Valley, B.C., will be the future home of Mr. and Mrs. David McLean, who were married recently at Esquimalt United Church.

Rev. F. B. C. Dredge read the nuptial service uniting Patricia Elaine, daughter of Mr. and Mrs. Arthur J. Byfield, 484 Sturdee Street, and the son of Mr. and Mrs. Malcolm J. McLean of Salmon Arm, B.C.

The bride, given in marriage by her father, was lovely in white slipper satin featuring a peplum of Chantilly lace, styled by a finger-tip veil of illusion net edged with the same lace and caught to a coronet of velvet flowers. A double strand of pearls, the gift of the groom, was her only ornament, and she carried red carnations and white sweet peas.

Miss Catherine Dixon, cousin of the bride, as "maid of honor," and Miss Ruth Hudson, bridesmaid, wore gowns of corded silk tulle in soft green and pale pink, respectively, and carried Colonial bouquets of roses, carnations and sweet peas. Little Penny Estley, a winsome flower girl, was frocked in pale blue with skirt caught up with tiny pink bows and forget-me-nots. She wore a bandeau of velvet ribbon with the same blue flowers and carried a basket of pale pink carnations.

The best man was Mr. Wesley Jollymore and ushers were Mr. Roy J. Byfield, brother of the bride, and Mr. Brian M. McLean. While the couple stayed the night, Mrs. V. Hunter sang "Blessed Are the Merciful" and "The Lord's Prayer."

# New York Market Ends Trying Week With Rally After War Scare Selling Cuts Into Early Gains

By L.N.S. and C.P.

The New York Stock Market finished a trying week on a rallying note yesterday. Leading issues advanced fractions to more than 23 a share after an erratic saw-sawing of prices in the early half of the session.

The market had staged a vigorous rebound in the first hour from Thursday's 23 to 310 a share "war scare" slump, with a number of issues up as much as 20 a share. So heavy was the demand that the ticker tape lagged for a time on the upside.

The Washington announcement shortly before noon yesterday that American ground troops would enter the fighting in Korea brought a new rush of selling into the market, which cut deeply into the early gains.

Supporting influences eventually steadied the market after this selling flurry and stocks settled down

at a moderately higher price level. Bonds suffered in the mid-day selling and came down only partially. Curb stocks were higher. Cotton was pushed up by trade buying. Final gains ran to \$1.10 a bale. Grains were mostly higher. Wheat, corn and oats were slightly higher; soybeans were strong.

## TRENDS IRREGULAR

Trends were irregular in active trading near the final hour on the Montreal Stock Exchange and Curb Market.

The market opened on a hesitant tone. A good demand soon developed and sent prices rallying fractions to more than a point, but near the final hour selling pressure forced many gains to decrease or turn into losses.

Changes generally ranged in fractions, with the odd issue moving a point. Industrial volume was 70,300 shares traded and mines had a turnover of 438,800 shares.

The industrial section, base metals

and banks moved irregularly. Papers and utilities displayed a firm tone, but utilities, senior oils, steels and beverages were weaker. Mines and Western oils moved in line with the market. Changes were generally small.

## PRICES SETTLE

In Toronto traders paused for breath on the Toronto Stock Exchange following a sharp decline Thursday. Prices opened slightly higher but settled quietly into a narrow price path as the session progressed. Volume was about 2,800,000 shares.

Leading industrials climbed up gains ranging from fractions to more than a full point. Papers, utilities and a few refining oils brightened while foods and textiles weakened. Senior bonds showed an almost solid list of fractional gains and junior producers advanced slowly over a broad front.

## Upsurge Seen In Car Market Due to War

DETROIT, June 30.—The Korean outbreak will bring a new upsurge in United States automobile market. The demand will affect both new and used cars.

This is the conviction of many car industry authorities. They assert that a substantial part of the record-breaking demand during the last six months has been due to a war hysteria.

As these experts see it, a worsening of the Far East situation could sharply restrict new car production, currently at record levels—over 2,000,000 cars and trucks a week. That would mean a rising demand for used cars.

The threat of war has been one of the main reasons for this year's increase in car production. Since January 1 it has built more than 3,100,000 cars and about 6,000,000 trucks.

Retail new-car sales during the same period probably have come close to 2,800,000.

## Car Loadings Show Increase

OTTAWA, June 30.—Carloadings on Canadian railways increased during the week ended June 24 to 63,200 cars, compared with 79,919 cars for the previous week, and one of the consequences that prompted the rail industry to swing this year into the highest production pace in its history.

The Bureau of Statistics today reported gains over last year in loadings of grain, livestock, coal, ores, building products, pulpwood, paper and wood products, and paper. Minor declines were shown in grain and dairy products.

## Prairie Oil News

By C. O. NICKLE

(Special to THE COLONIST)

The California Standard Company has discovered natural gas in large volume and made it in the Imperial County, California, section of the Imperial Valley. The Imperial Valley is about 100 miles north-east of Los Angeles, and about the same distance south-east of the Redwater oil region.

Cal-Standard reports four drill-stem tests on its Imperial well, the fourth and latest giving a rise of 29 to 30 A.P.I. gravity. All were one hour tests through one-half inch chokes. First, interval 4,106 to 4,127 feet, gave maximum gas flow 8,200,000 cubic feet daily. Second, interval 4,117 to 4,137 feet, gave maximum gas flow 7,380,000 cubic feet daily. Third, interval 4,145 to 4,165 feet, after penetrating a shale band, gave maximum 5,000,000 cubic feet of gas daily. The fourth, interval 4,180 to 4,199 feet, gave only 400,000 feet of gas flow rate, with pipe recovery 920 feet of gray crude oil. Coring is continuing.

## INDICATED DISCOVERY

The Imperial well, which is located about 2 1/2 miles east-northeast of the Imperial discovery. The well was carried 74 feet into D3, but due to the small diameter of the hole drilling was discontinued after a flow of oil was encountered. To fully determine the pay thickness at the indicated new structure a 2 1/2 inch well is planned.

The indicated discovery, PD No. 1, was drilled by Northern Development Company on a lease owned jointly by the team of British American Oil Company and Leduc-Leaseholds Limited. The Imperial well is the northernmost well of the 1-50-27-W4U. Under the terms of the agreement Northern drilled and will complete PD No. 1 at its own expense, in return for an undivided 50% interest in the well. The other 50% will be shared by B.A. and Leduc-Leaseholds. Further development costs and benefits will be shared equally between Northern and the B.A.-Leduc Leaseholds team.

## TWO SUCCESSFUL

There were two successes in the Leduc-Leaseholds discovery area, two successful oil wells and one failure. Okalta Oil placed another South Leduc well on production while Imperial completed another Woodhead producer. The West Properties Limited venture, drilled on a British-American lease, was failed to find production—and was abandoned this week.

## At Ensign Imperial well on production

Another Devonian well on production, while the Coastal Oil-Leduc team failed to find oil at their extension effort in that region.

British Empire Oil Developments completed drilling at its third successful Stettin oil well and commenced operations at its fourth well on the freehold tract that it owns.

Two gas wells established their initial potential this week, one in the Medicine Hat area of Southern Alberta and the other in the Viking-Kinsella gas field of Central Alberta.

## Four wildcats reached the end of their trail this week after failing to yield either oil or gas production

They included: Imperial's Leduc well, which failed to find oil at its extension effort in that region. British Empire Oil Developments completed drilling at its third successful Stettin oil well and commenced operations at its fourth well on the freehold tract that it owns.

# Uncle Wiggily Story

THE CIRCUS WAGON  
Sammy Little had run home to the Hollow Stump Sungalow to tell Nurse Jane and Mrs. Wiggily that Uncle Wiggily and the others were going to join the circus for a while. Now Sammy was excited as he ran toward the circus wagon. "I've never seen him run so fast," said Sammy's sister Susie. "That's not since you gave an ice cream party for us, Uncle Wiggily, and Sammy was afraid he'd be late." Sammy rushed up to where Uncle Wiggily and the others were standing and cried all out of breath: "Guess what?" "How can we guess what?" Uncle Wiggily asked in a twinkling. "If we did guess what, what would we guess?" "Well, you could guess whom I was coming down the path from the Big Oak. I saw a trick monkey!"

"I saw on my way back," puffed Sammy. "I went home, as you told me to, Uncle Wiggily, and told Nurse Jane and Mrs. Wiggily we were going to join the circus for a while. Then I went to Jackie Bow-Wow's house and told his folks. Then, when I was coming down the path from the Big Oak, I saw a trick monkey!"

"Well, I wish he'd hurry up and find it," Jumpy grumbled. "Because if it is, Susie has a magic doll to help you." "No, I don't think so," said the horse. "I think he's just back to the circus." "Then why don't you let someone else ride on your back, until Chatter returns?" asked Uncle Wiggily. "I can't, that's why I'd like to wait that long! Perhaps I can think of an idea!" But Hippo the circus manager was getting the wagon ready to move on to the next town where they were going to give a performance, and Uncle Littlestall asked, her eyes open wide.

## Magic Putter Wins P.N.G.A. Contest

Mengert Triumphs by Sensational Play—Mrs. Todd Bows Out in Stiff Battle

VANCOUVER, B.C. June 30 (CP)—Al Mengert of Spokane, Wash., a kid with a magic putter, beat Mrs. Todd today to win the P.N.G.A. contest final at the Pacific Northwest Golf Association final at the Capilano course here.

Down four holes at the end of the first 18 holes, the 29-year-old Mengert played ten strokes from par 72 on the back 18 to end up all square with Ray Weston of Spokane on the 36th.

Mengert bridled the 37th hole and took par on the 38th and 39th. On the 40th, Weston blew with three putts.

Red-eyed and tired after seeing his four-hole lead dissolve, Weston, 1947 champion and runner-up last year, just didn't have it in the final stages.

### INCHES WIDE

On the 40th green, Weston stroked his final putt within three feet of the cup, then stepped up quickly and hit the ball inches wide of the hole. Mengert sank a 14-inch putt for the victory.

Mengert, twice United States junior champion, will meet veteran Harry Givan of Seattle, Wash., in the final.

Givan, who has won the P.N.G.A. title four times and been runner-up twice, had little trouble disposing of Dave McBeath of Bellingham, Wash., 4 and 3.

Babe Davies of Vancouver, B.C., playing steady golf all the way, upset defending champion Edwain Anderson of Seattle, Mon. 3 and 1, to enter the women's final tomorrow.

Her opponent will be 22-year-old Grace DeMaas of Coquille, Ore.

## They Couldn't Stop Him

Vancouver Burrard net bulges as Len Scott, 110, of Victoria Shamrocks scores in first period of last night's Inter-City Lacrosse League game at Memorial Arena. Goal broke 2-2 tie and put Shamrocks ahead to stay as they romped to 12-9 triumph Harry Buchanan (14) and Roy Pinder (second from right) were unable to stop Scott as he went through and faked goalie Walt Lee (left) out of position. Larry Booth of Shamrocks is seen in background (above Pinder's head).

## Rocks Triumphant, Rap Burrards 12-9

Early Lead Never Lost in Arena Tilt As Victorians Relish Wide-Open Action

On the Mainland last night, the Admirals caught fire in Vancouver's Memorial Arena and roared Richmond 12-9 to climb into a first-place tie with Indians.

At full strength for the first time this year, the A's jumped into a 3-1 half time lead after being held 1-1 in the opening quarter. Richmond waited in the second half, being content to let the speedy Admirals coast in on goalie Bill Sampson's will.

Mike Munro whipped home four goals for the winners while teammates Ivo Jerome and Jackie Northup managed two apiece.

Shamrocks, who had dropped to earlier starts to Burrards, got away to a flying start on two sparkling goals by Arnie Ferguson in the opening stage and were ahead 4-2 at the quarter. Another master by the Shamrocks came and a pair by Ed Popham made the two-point lead 6-2 at the half.

In the third quarter, the veteran Burrards countered by scoring twice in the tempo of the play and made their pattern pointer put off to the time of two goals. Meanwhile, the Shamrocks could not save the victory by scoring twice in the final period.

The fourth period was a back-and-forth struggle with neither team scoring. Burrards' late goal, however, gave them a 11-6 victory through the season.

Not to be outdone, the Vancouver Admirals staged a stirring goal in their own Best Technical Juniors, and Fred Whitaker drove home the homecoming goal, giving the team a 11-6 victory.

# Fielding Lapses Prevent Scoreless Tie in Softball

**HOW THEY STAND**

Team	W	L	Pct
Douglas Tire	11	4	.688
Chinook-Woodward	8	7	.533
Brentwood Aces	7	8	.467
Forest Products	6	9	.400
Bluebird Lads	5	9	.357

Next game, Tuesday: Brentwood Aces vs. Chinook-Woodward

But for fielding lapses at critical times, Chinese Students and H.V. Forest Products of the Senior "A" Men's Softball League would have ended last night's game in a scoreless tie.

The clubs whipped through the contest in an hour and 15 minutes as Stan Tanning of Students and Bud Ross hooked up in a brilliant mound duel with the veteran Students coach gaining a 2-1 margin on an unearned run in the eighth.

The victory left the runner-up Students just two-and-a-half games behind the leading Douglas Tire team, while the Millmen dropped back to a fourth-place tie with Bluebird Lads.

Monday's game between the Cabbies and Millmen has been postponed to permit the diamond to be watered, and the first league action will be on Tuesday when Brentwood Aces meet Students in a battle for second place.

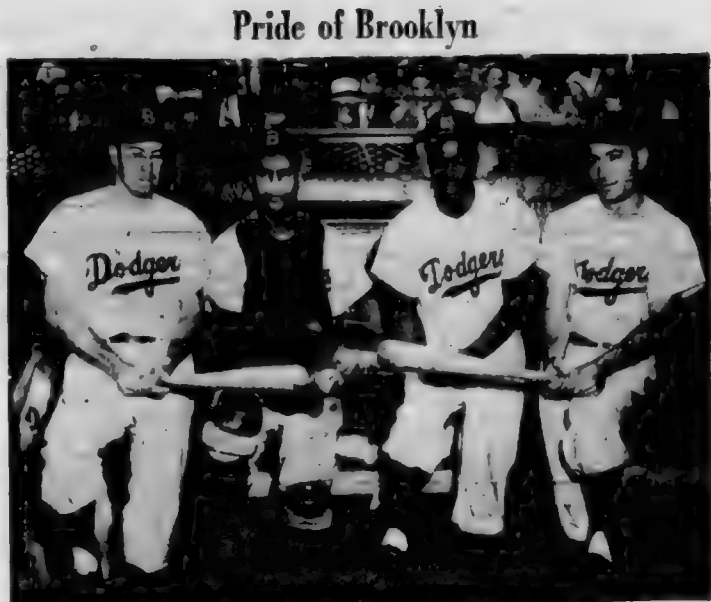

**IN TROUBLE TWICE**  
Tanning gave up eight hits com-

pared to the five that Students obtained off Ross, but was only in trouble in two innings. Successive singles by John Kennedy, Mickey Smith and Jim Ireland, and an error by Top Mar, gave the Millmen their only run in the fourth. Ireland was thrown out at second and Smith was caught at the plate to pull Tanning out of trouble. He stranded runners on first and third in the fifth and only two other runners reached second both on errors.

Successive singles by Bung Derr and Jimmy John, an infield out and an error save Students the tying run in the bottom of the fourth. Ross then pitched hitless ball until Tanning virtually won his own game with a single in the bottom of the eighth.

Jack O'Neil, making his first appearance in the Student line-up in a pinch-hitting role, drew a life to open the inning when George Brown overran his short fly to left field. He advanced to second on Gordie Chow's sacrifice bunt and scored as Tanning singled through the middle and Centrefielder Gus Hilton allowed the ball to go through him.

Forest Products' Don Johnson, a Chinese Student, was the only one to reach base safely in the eighth. He was out at first on a throw from Tanning.

Here are four reasons why Brooklyn Dodgers are right in thick of National League pennant fight despite sub-par performances by their pitching staffs. Team's leading sluggers, all hitting over 300 and among leading home-run hitters, are, from left: Outfielder Duke Snider, Catcher Roy Campanella, Second Baseman Jackie Robinson and Outfielder Carl Furillo.

## Boost Toward B.C. Title

# Young Takes All Comers In Heals Range Shooting

W.O. 2 Jake Young of the 75th (B.C.) H.A.A. Regiment won the beautiful Taylor trophy with a score of 496 points in the All Comers' Aggregate which closed yesterday at Wells Range with the 300-yard leg of the British Columbia No. 2 match. Mrs. Eileen Leonard won the two aggregate which does not include the Consols 2 with a score of 234 points to capture the General Leeson Trophy and souvenir.

Young also won the Victoria Corporation Trophy and souvenir in a shoot off with Lieut. H. Gray of the Canadian Scottish Regiment. # Hurlers of Past Had Better Control, Declares Marquard, All-Time Great

Thirty-eight years ago a whip-around ballplayer named Rube Marquard turned himself into 19 victories in a seven-pitching record never equaled since. Today at 42, Marquard looks back the pages of history in a time when "he loved to win."

**By PAT ROBINSON**  
NEW YORK, July 1 (INS).—The only publicity Rube Marquard has received of late was not entirely to his advantage.

On September 2, 1912, 18 men were picked up on the Bowery on New York's Lower East Side and charged with loitering. One of the 18 listed his name as Richard Marquard.

Magistrate Charles Murphy, glancing at the patrolman's complaint, looked at "Marquard" and said:

"What was your trouble?"

"As usual, Your Honor," the man replied, "Drinking."

"Aren't you the famous Rube Marquard?"

"Yes, sir."

"I understand you won 19 straight for the Giants in 1912."

"That's right, Your Honor. The record still stands."

In net result, the comparatively young Judge Murphy, the real Rube Marquard branded the courtroom Marquard an impostor.

"I work the 500 mutual window at the Garden State track in Camden, N.J.," Marquard said. "You can't do that when you drink."

There are probably several morals to be drawn from this episode, and the least of which is the fact that even a Judge on the bench can remember Marquard's 19 straight in 1912, which stands today as one of the finest pitching records of all time.

Now 61, Marquard is working the 500 in the mutual window of the Garden State track. He looks back to 1912, and his observations are keen and unimpaired by time.

**CONTROL**

Says the famous left-hander:

"This claim the baseball today is livelier than it was in the days when I pitched those 19 consecutive victories, but believe me, the ball isn't the thing."

"In my day, we had the necessary control and pitched for the batter's weakness. The fielder knew where we were pitching and played the batter accordingly."

Sgt. J. W. Lightburn won the Lord Mayors Rifle with a score of 163 in the three city matches.

## Alberta Oil Helps Canada Conserve U.S. Currency

Alberta oil will save Canada \$100 million in U.S. currency next year, Mr. Justice Colin Campbell McLaughlin of the Trial Division of the Supreme Court of Alberta announced last night.

The Calgary judge was addressing 125 delegates and guests at a banquet winding up the annual meeting of the Law Society of British Columbia at the Empress Hotel.

Mr. Justice McLaughlin told of the tremendous development of Alberta oil fields since the discovery of the Leduc oil field three years ago.

Through provincial ownership of 93 per cent of Alberta oil fields, he said, the boom in making a rich Alberta rather than rich Albertans.

**HELPS NATION**  
Alberta oil is helping the entire nation in its shortage of United States dollars, he said.

"Last year, Alberta oil sales in Canada totaled \$600,000,000," the judge said. "It would have cost us \$200,000,000 to bring that much oil from the United States. In 1951, sales of domestically-produced oil in Canada will save Canada \$150,000,000 in United States currency."

Present Alberta sales, he said, if continued at present rate, would amount to 125,000,000 barrels a day.

Canada's oil reserves, he said, are estimated to be 100 billion barrels. He said Canada has a nine-year reserve of oil compared with the United States' 35-year reserve.

Canada has developed a much more extensive area of the United States has, and might be expected some day to produce one-third as much oil as the United States.

A few years ago this sort of reasoning would have been regarded as utterly fantastic. Now scientists are not sure that it is even unrealistic.

**NEW MARKETS**  
He said the 1,150-mile oil pipeline from Edmonton to Sarnia, Wis., will open vast new markets for Alberta oil.

"We are about to open our 1950 major oil line in Canada. Oil will mean the difference of 100 from the supplier and the tanker to the consumer's tank and will saturate the great Ontario market."

In addition, he said, there was a "chance of Alberta oil gaining a competitive foothold in the oil-hungry areas of the border States through which the line passes."

Speaking of the proposed natural gas pipeline from Alberta to Vancouver he said that while the Al-

## Party Protests Canadian Help For Koreans

Canadian Government preparations to send three destroyers to aid the Yankee invaders of Korea, was protested in a statement issued yesterday by the Victoria Labor-Progressive Party, signed by Secretary Doris Blake.

"Is it really the United Nations that is supporting the South Korean President, Syngman Rhee?" the statement asks.

**CRITICIZE VOTE**  
The United States announced military intervention before the United Nations Security Council met. The vote was not taken by the Big Five; the seven votes out of 11 were those of Britain and France who are linked to the United States by Marshall Aid and the Atlantic Pact.

Outside of the United Nations, the Chinese Nationalist delegate, who can no more speak for China than the Grand Lama of Tibet, and three Latin-American "banana" republics, client states of the United States.

Two of the Big Five, whose unanimous decision is required under the United Nations charter, were absent and the Asiatic members abstained.

"Koreans were guaranteed the right to an independent united state by the 1943 Cairo agreement between Great Britain, United States, France and China and the 1945 Moscow agreement between Great Britain, the U.S.S.R. and the United States."

**ELECTIONS HELD**  
In 1948, all-Korean elections were held, in which 99 per cent of the people in the North voted and 77 per cent of those in the South. The coalition formed then includes equal numbers from North and South Korea and represents all political groups and classes.

In subsequent United Nations-supervised elections last May, the 40 per cent of the electorate participating rejected the 102 Opposition candidates and only 48 pro-United States Rhee men—even though Rhee jailed 90 Opposition candidates during the campaign.

"Syngman Rhee is no more representative of the people of Korea than Chiang Kai-shek is of the people of China."

There were wholesale arrests of opponents. This regime had often threatened to settle the issue by force.

"The people of Asia have stood up and are throwing off the shackles of colonialism."

**Court Grants Bail**  
VANCOUVER, June 30 (CP)—Lomb Trembley, 55, of Alberni, was granted bail of \$2,000 in Supreme Court here pending trial on a perjury charge arising from a fire insurance inquiry.

The retired contractor, sentenced to serve six months on the charge following an inquiry into a fire at his home last summer, was granted a new trial by the Court of Appeal.

## Police Chief Calls For Sane Driving

"Be safe on July 1 so you can be alive on July 2," Chief of Police John Blackstock warned drivers yesterday. The chief appealed to motorists to drive carefully during the heavy-holiday traffic. He reminded holidaymakers to refrain from speeding, weaving in and out of traffic and passing on hills or curves.

"Above all, don't drink if you drink," Chief Blackstock advised.

## Big CJVI Transmitter Will Boom Out Tonight

One night last week a group of men sat in a parked auto on an up-island crossroad, straining to hear their almost-silent car radio. M. V. Chouin, manager of Victoria's Radio Station CJVI, looked at his watch. It was 12:20.

"I can't understand it," he said, "the new transmitter should be on the air by now."

The men had made the trip to check reception of the after-hours test transmission from the station's new 685,000 transmitter. But all that came from the radio speaker was a thin, barely-audible signal.

**DISAPPOINTMENT**  
Minutes dragged by and the men groaned. After their years of planning and months of hard work, was this the best the new set-up could do?

Suddenly band music blared forth, "loud enough," one of the men reported later, "to blast us out of the car."

Studio engineers, who slipped up on their timing, had been a few minutes late switching over to the new transmitter.

**NO MISTAKES**  
Station officials hope for no such slip-up tonight, when the transmitter takes the air officially at 8 p.m. The souped-up signal may not be loud enough to blast Victorians out of their living-rooms, but it will be strong enough to reach out to Campbell River.

The first voice heard over the new transmitter will be that of Bishop Harold E. Sexton, who will deliver a dedicatory address. The bishop

will be followed by Premier Byron Johnson, Maj.-Gen. George R. Pearkes, and Fisheries Minister Robert Mayhew.

**SPECIAL PROGRAMS**  
Next in the series of special programs planned by the station are "S.O. Holiday," sponsored by the Provincial Department of Trade and Industry, and "Lighted Journey," a history of the B.C. Electric.

"CJVI's Talent Showcase," a potpourri of "live" talent regularly heard on the station will be heard at 8:30, followed by a special M-G-M Theatre production.

Salutes from the Brant Inn, leading Canadian nightclub, near Hamilton, Ont., and the new Shamrock Hotel at Houston, Tex., will be aired between 11 and 12.

Previews of new shows to be heard regularly on the station this autumn will be broadcast all next week.

## Burglars Attack Chinese In Cowichan River Shack

DUNCAN, June 30.—Chu Deb, 75 Chinese, is in fair condition in King's Daughters' Hospital after having been severely beaten on the head at his shack near the railway bridge on Cowichan River.

Chu was discovered at 9 a.m. Friday by Bawa Singh, who had delivered wood at the shack. The Chinese was lying unconscious a few feet from the door of the building. Attackers had beaten the old man on the head with a bottle inside the one-room shack and dragged him outside and pummeled him with flat-stone.

The shack had been ransacked, but Chu's wallet was left untouched under a plate. Constable J. H. Meredith-Jones discovered the wallet after police had searched the room.

"Robbery was undoubtedly the motive," said Sgt. F. L. Jeeves, head of the Duncan detachment of the Provincial Police.

PARKVILLE, June 30.—An increasing number of local sport fishermen are taking advantage of the newly-completed boat basin at French Creek, between Parkville and Qualicum Beach. Now that safe anchorage is assured, several new craft have been purchased.

The basin can accommodate 50 small power boats, and there are 17 tied up at the float, plus a number of rowboats.

A great convenience to those using the harbor will be a business to be started in the near future by J. L. Stevens of French Creek. Mr. Stevens will operate a boat rental service, and will also supply ice and fishing tackle. For this purpose he is erecting a building adjacent to the wharf approach beside Lee Road.

A report of the public works committee noted that crushed gravel had been laid on Robert Street, from First Street to Esplanade Avenue. It will be filled and rolled next week.

## WANT WATER PIPE

An application from the Ladysmith Laundry for a one and one-half-inch water main was left in hands of the waterworks committee.

A letter from the Central Vancouver Island Health Unit asking for an expression of opinion on a proposed dental program for public school and day-school children was tabled until the next meeting. COURTENAY, June 30.—British Columbia has a great future in oil. Premier Byron Johnson declared during a public meeting in the Native Sons' Hall.

The Premier saw the Peace River area as one of the biggest contributors to the provincial economy in the near future, and said it would be brought about by development of the provincial highway system, the P.G.E. and agricultural and oil resources.

Possibilities of large oil discoveries in the northern part of the province were very real, Premier Johnson said. He referred to producing wells only a few miles across the border in Alberta, and said the geological formations in which these wells were located were continuations of similar strata found in British Columbia.

The Government was concentrating on construction of arterial highways in the province because the policy promised the fastest development.

It was noted that if some rate adjustment could be obtained, a full railway-car of cattle could be sent from the Island to Vancouver, and then to the Cowichan Agricultural and Industrial Exhibition at Duncan.

## Ayrshire Club Debates Rate

DUNCAN, June 30.—Directors of the Vancouver Island Ayrshire Club noted that increased livestock freight rates would render it impossible for many exhibitors to enter cattle at the Pacific National Exhibition, Vancouver. They met at the home of Mr. and Mrs. K. G. Scott, Hillbank.

It was noted that if some rate adjustment could be obtained, a full railway-car of cattle could be sent from the Island to Vancouver, and then to the Cowichan Agricultural and Industrial Exhibition at Duncan.

## The Stamp Packet

By R. M. ANGUS

It seems strange that when Canada's stamps are sold in quantities of one hundred or more, they are not sold in the form of a packet. The stamps are sold in the form of a packet, and when they are sold in the form of a packet, they are sold in the form of a packet.

The first stamps issued by the Dominion Government were put into use in 1851 and consisted of a set of 11 stamps from 1c to 11c, or 11 of the denominations of the time, representing the value of the stamps. It is a pity that the stamps are not sold in the form of a packet, and when they are sold in the form of a packet, they are sold in the form of a packet.

We have known stamps of the Dominion Government for many years, and it is a pity that the stamps are not sold in the form of a packet, and when they are sold in the form of a packet, they are sold in the form of a packet.

There are no stamps of the Dominion Government for sale in the form of a packet, and when they are sold in the form of a packet, they are sold in the form of a packet.

**L**ARGEST single construction job being undertaken in the continent and probably in this hemisphere is the Toronto Subway—Canada's first. Songs are being written about it, millions of dollars spent on it, traffic snarled temporarily because of it, and in the meantime thousands of pedestrians rubber-neck and watch. No one seems to know precisely how the work is being done. News reports and feature stories have merely covered phases in development. And even the experts will not hazard a guess at the final cost. They do know it will come to millions of dollars.

**WORKMAN** using post-hole digger equipment climbs down from street level. One major problem in construction is to keep water out of the excavated areas. Here a pump hose is being run below surface to remove seepage and rain water from subway bed.

**THIS WORKMAN** comes hand held to remove soil along Yonge Street. Pits are constructed every 25 feet or so on either side of the street by subway. Earth is removed from beneath large buildings on both sides as workers build concrete pillars beneath to support them as subway progresses.

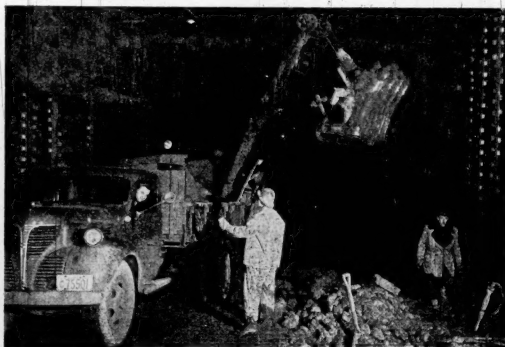

**THE TRACKS GO BACK** down again north of King looking north on Yonge toward Eaton's on left but traffic has not been allowed to go through yet.

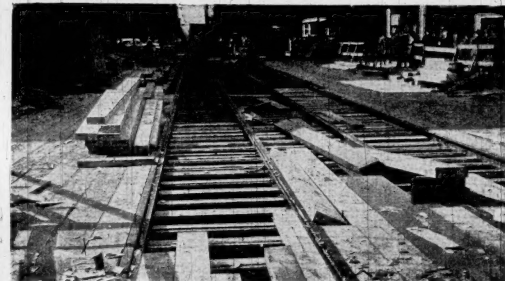

**THREE MONTHS AGO** when this picture was taken, the above-ground work on the subway was at its peak and transportation for Torontonians was badly snarled. Intersection shown is that of King and Yonge Streets. Camera looks north on Yonge where streetcar tracks have been torn up as excavation begins north of King. Area south of King in foreground shows planking being placed over completed system excavation of Yonge.

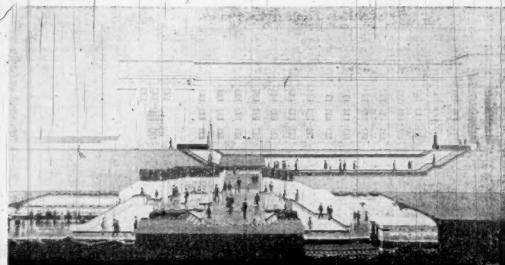

**RECENT PHOTOGRAPH** showing Union Station on right, Royal York Hotel on left. Area shown is portion will be location of southern underground terminal.

**TRUCKS REMOVING SOIL** under Yonge. Depth of subway is shown by truck level in steel beams above.

**THIS PICTURE TAKEN RECENTLY** along the north of King being, showing an effort is made to keep transportation moving during subway construction.

**THIS IS A CUT OUT** of the subway—Union Station—where passengers from the station and from two street entrances can board train.
